

What is Coronavirus?

Coronavirus is a new virus.
Coronavirus is also called COVID-19.

Coronavirus can affect people's lungs and airways. It can make people feel sick.

Coronavirus can spread from person to person.

People who have Coronavirus might have:

A fever

A cough

Shortness of breath.

If you have these symptoms or if you are worried, you should phone your G.P. or ask staff for help.

Most people who have Coronavirus stay at home to get better.

Some people have to go to hospital to get better.

You can help stop the spread of germs by:

Washing your hands often with soap and water.

Using hand sanitiser.

Coughing or sneezing into your elbow.

Not touching your eyes, nose and mouth.

Cleaning surfaces with disinfectant.

Staying at least 2 metres away from other people.

The HSE and the World Health Organisation have updates on their website.
